

## Work Experience

---

› **Engineering Intern** | May 2020 - Present  
*WellNestd, Cambridge, MA*

Collaborate as an integral member of a fully remote team to achieve the fast-paced goals of an early-stage startup.

Engineer and design minimum viable product solutions to increase customer engagement and fix operational efficiency blockers.

› **Web Engineering Intern** | June - August 2019  
*Cogo Labs, Cambridge, MA*

Built new, impactful front-end features for existing internal web applications that help employees manage and communicate their completion of tasks.

Collaborated with designers and internal stakeholders to inform implementation decisions and collect feedback.

Presented new features to over 100 employees; announced and managed new feature rollout.

› **Developer Co-op** | July - December 2018  
*Rightpoint, Boston, MA*

Collaborated with agency clients to develop websites that met business objectives using the Sitecore CMS platform.

Interacted with project managers and other development team members to create quality code in a timely manner.

› **UX Co-op** | July - December 2017  
*edX, Cambridge, MA*

Designed prototypes and mockups for web pages to be put into production on edX website with millions of learners.

Conducted user research and usability testing to determine problems and validate potential solutions.

Contributed to conversation regarding product vision and direction, specifically on the Enterprise team.

Collaborated with a Scrum team to make decisions regarding team goals and to eliminate UX blockers.
